- 3. Connect to the Integration as you did when you downloaded the course
- 4. It should update automatically. When done, simply close the window.

5. A dialog box will let you know if you still have any unlicensed users (students who don't have or haven't registered their subscriptions). The **Course Overview** in the **Manage** tab will also clearly show whether a student has both an account and a valid subscription.

6. Click Okay and you will now have the most recent version of your course list.
