My One-month Visit at NTU

- ▶ NTU was formerly a teacher's college and became a comprehensive university in 2003.
- ▶ I co-taught an early childhood curriculum seminar (half of the content was covered a local faculty and half by me) in July/August 2012.
- ▶ Course content was flexible enough for me to take over the class in the middle of the semester. Prior research took some times but it was necessary.
- ▶ The second course I co-taught was research method. I had to cover certain chapters of the textbook as requested.
